

Sigma Design Company Provides Creative Design Solutions and Engineering Analysis For the Development of New Products and the Specialty Machinery To Support Them.

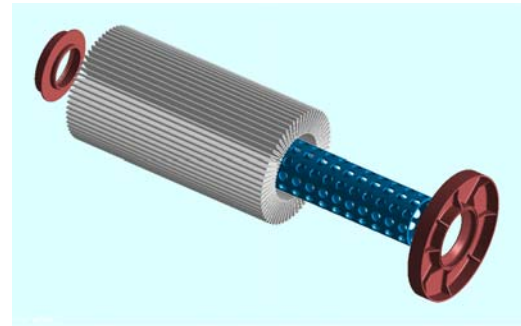

EXPERIENCE: FILTRATION DEVICE AND MEDIA SELECTION FOR SOLID/LIQUID SEPARATION, FLOW ANALYSIS AND MODELING, INDUSTRIAL FILTRATION SYSTEMS, WATER TREATMENT SYSTEMS, FILTER COMPONENT DESIGN AND COMMERCIALIZATION, FILTER HOUSINGS ASME VIII

Filtration Evaluation Test System
For U.S. NAVY Desalination Program.

BENEFITS:

1. Experienced Filtration Engineers select better filtration solutions and understand process limitations.
2. Advanced Design Tools and 3D visualization of fluid flow profiles uncover non-obvious, counter intuitive design flaws.
3. Experienced Filtration Designers provide OEM's with Manufacturing Friendly Designs = Lower Production Costs

OEM Custom Pleated Filter Cartridge
Assembly For 25-Micron Water Application

Industrial Hydraulic System 5 Micron
Pump/Treat With Water Removal Pre-filters.

Licensed Professional Engineers: NY, NJ, PA, LA
