

Advance Your Career at Sigma Design Company!

Sigma is hiring! If you are looking for an exciting opportunity to put your manufacturing, design, and engineering skills to work in a fast-paced and collaborative environment, Sigma Design wants to talk with you!

Sigma Design Company is a leading one-stop design, engineering and manufacturing resource for the development of specialty equipment and engineered systems. For more than 20 years, we have leveraged our vast technical and analytical knowledge — plus the latest cutting-edge technologies — to transform more than 1,000 design and design/build projects into specialty products and equipment that are in use across the world.

Every step in the process – from product development and design to manufacturing and validation – is done in our 20,000-square-foot Technology Commercialization and New Product Manufacturing Center in Middlesex, New Jersey.

WE ARE LOOKING FOR EMPLOYEES WITH INTEREST IN THE FOLLOWING AREAS:

- Administration
- Assembly Technicians
- Electronics Technicians
- CNC Machinists
- Marketing & Sales
- Mechanical Engineers
- Production Control & Planning
- Welders

We provide structured internships and co-op opportunities in all these areas.

Visit sigmadesign.net/careers/ for more information.

Make money, learn, and advance your career at one of the premier design & manufacturing firms on the East Coast!

Sigma Design Company, 200 Pond Ave., Middlesex NJ 08846 | 732.629.7555 | info@sigmadesign.net | sigmadesign.net

More about us

Sigma provides broad access to and training for today's most advanced technical tools: Ideation; Photorealistic Imaging and Product Development; 3D CAD; Simulation: Motion, Heat Transfer, Non-linear FEA; Electronics PCB Development, and more. In addition, team members have access to a fully functional model shop and machining center, allowing creative people the ability to use their skills in a very unique environment.

OUR MARKET FOCUS IS ON AREAS OF GREAT SOCIAL IMPORTANCE:

- Health and Life Sciences – Creating analytical devices and test systems
- Food Processing and Ag-Tech – Creating food-safe testing and processing systems
- Clean Tech – Creating original filtration products and water treatment systems
- Energy – Providing innovative technology solutions to support hydro, nuclear, solar, wind

BE PART OF THE SIGMA DESIGN COMPANY TEAM!

- ✓ In a world where manufacturing is expanding, we offer opportunities to learn the latest in technology and pursue lucrative career paths in new product development.
- ✓ In a mid-sized firm like Sigma Design everyone is important. Don't get lost in big firm politics! Sigma Design provides team members with meaningful experience in a wide range of manufacturing skills that will help further their career.
- ✓ We believe that manufacturing and innovation are cool!

At Sigma, you'll get to work on the latest technology as you create new products and systems the world has never seen before. Make money, learn, and advance your career in a growing and critically important industry. We offer:

- ✓ An ideal opportunity for those who wish to create new products from concept to delivery
- ✓ A great place to earn and learn as you develop your career and acquire real industry knowledge
- ✓ Work in a team environment with support and manufacturing training
- ✓ A collaborative, supportive culture where teamwork is prized
